

# GREATER NASHUA PUBLIC HEALTH 2019 ANNUAL MEETING

## **Working Together at the Roots: *Becoming a Trauma-Informed Community***

Please join us for a full-day interactive workshop focused on learning about Adverse Childhood Experiences (ACEs) and the science of brain development, finding out how ACEs and trauma impact our community, and strategizing ways in which we can work collectively to transform how we respond to community needs and challenges.

### **WHY ATTEND?**

*"Building resilient and trauma-informed communities is essential to improving public health and well-being. Communities can be places where traumatic events occur, and they can also help keep us safe. They can be a source of trauma, or buffer us against the negative effects of adversity. Communities can collectively experience trauma much like individuals do, and they can be a resource for healing."* - SAMHSA

**October 2,  
2019**

**8 AM - 4 PM**  
Nashua, NH

**REGISTRATION IS OPEN! - \$25**
